ELLSWORTH — The Boston Society of Landscape Architects recently recognized Atlantic Landscape Construction of Ellsworth for its work as the landscape contractor on two Maine residential properties at the society's 2009 Design Awards Banquet.

An Honor Award in residential and garden design was given for the creation of a native landscape at a remote lakeside retreat designed by Richardson & Associates of Saco.

In addition, Atlantic was acknowledged for its work with Reed Hildebrand Associates of Boston, whose submittal titled "Rosserne: A Curatorial Stewardship" garnered a Merit Award for Residential and Garden Design in Northeast Harbor.

Fifty-nine submittals were received from across New England for this year's awards program.
